DESCRIPTION OF VEHICLE					
<p>1955 Bentley Mulliner Light Weight Sedan. This was the last coachbuilt R-Type Bentley made. It is Left Hand Drive and was delivered to it's first owner here in the U.S. in May, 1955. It is an extremely beautiful and rare car. Body was made by the renowned custom coachbuilder, H. J. Mulliner. The body is all aluminum and in excellent condition. The body has been restored and shows no evidence of rust or corrosion. Paint color is a cream yellow. Paint is not original and is currently in very good condition. It has gorgeous genuine red leather interior and real wood trim throughout. Leather is not original and has been replaced with original specification materials. All wood trim has been meticulously restored and refinished to original specifications. It is equipped with a rare factory automatic transmission. Engine appears to run very well.</p>

ADDITIONAL OPTIONS					
<p>This vehicle is a limited production coachbuilt vehicle. Coachbuilt vehicles are very individual with no two being alike. The Light Weight option means that this vehicle is built from aluminum rather than steel, making this vehicle extremely rare and desirable.</p>

FINAL COMMENTS		
1955 R-TYPE MULLINER LIGHT WEIGHT LHD	VIN	B215LZX
COMMENTS		
<p>This vehicle is a fine example of a very rare and collectible Bentley automobile. It has had some interior and exterior restoration work performed at an unknown time. The paint is in excellent condition with some very minor road chips. The interior has been restored at some point with correct leather matching the original very well. All interior wood trim has been expertly restored and refinished. All electrical components appear to be functioning properly. Exterior chrome is in excellent original condition. Original wheel covers and recently replaced, original style wide whitewall tires are in excellent condition. There is some stains on the inner trunk carpeting, however; the carpets are original and in excellent shape otherwise.</p> <p>The vehicle appears to be mechanically sound, with no apparent defects. With some minor cosmetic restoration and detailing, this vehicle can only increase in value.</p>		
FAIR MARKET VALUE		
Based on the Appraisal above and research performed, the fair market value of this vehicle is:		\$65,000.00

This appraisal has been performed to the best of my skill and judgment, and the above vehicle has been personally inspected in order to establish and document the condition, description and fair market value at the time of the appraisal. Fair market value and other assessments are based upon information obtained from, but not limited to the following sources: owner provided documentation, trade publications, museums, nationally recognized auto value guides, recent auction results and personal knowledge of the automobile and collector car industry. Fair market evaluations are to be used as a guide only, and may fluctuate up or down depending on economic factors, rarity of the vehicle and many other conditions. Therefore, New England Auto Appraisals and/or Associated Appraisers offers no warranties, express or implied regarding the value of this vehicle, and assumes no liability whatsoever in respect to any action that may be taken on the basis of this appraisal or any of the information contained within.
